

Lee Patrick

Restoration Ecologist
Invasive Plant Control, Inc.
Nashville, TN 37205

**Biological Sketch – July 20, 2009**

Lee Patrick is a native of Chuckey, TN in the foothills of the Blue Ridge Mountains and received his B.S. from East Tennessee State University in 1990.

Lee Patrick is Co-Owner, Vice President, and Restoration Ecologist of Invasive Plant Control, Inc. He has 17 years of invasive species management experience ranging from the rotenone treatment of 190 miles of stream and 17,000 surface acres of Strawberry Reservoir watershed for Utah Division of Wildlife Resources in 1990 to control chubs and suckers, to invasive plant management throughout the Eastern United States with Invasive Plant Control, Inc. Invasive Plant Control, Inc. is one of only a few companies in the United States whose sole purpose is the management of Invasive Species nationwide. Focusing specifically on invasive plants has allowed Invasive Plant Control, Inc. to become one of the nations leading private entities for controlling invasive plants. Mr. Patrick also is a founding member of Tennessee & Southeast Exotic Pest Plant Council (EPPC), and currently serves as Treasurer of SE-EPPC.
