Noxious Weeds Watch for these wildflowers!

Early detection and control will help protect the recreational and agricultural values of this area.

What’s the Problem?
Noxious weeds...
- Replace native plant communities
- Reduce available forage for livestock and wildlife
- Impair soil and water resources
- Eliminate recreational and agricultural opportunities

What You Can Do to Help
- Learn to identify noxious weeds
- Dispose of noxious weeds properly
- Avoid transporting seeds on vehicles, boats, animals or clothing
- Notify a weed authority about any infestations immediately:
  - Gallatin Weed Control District - 582-3265
  - Bozeman Ranger District - 522-2520
  - Gallatin Conservation District - 522-4016

$100 REWARD for finding any yellow starthistle
